Hello Friends:

Please find attached the final Workshop Summary from the all-day technical session held last March. We consolidated into this document as much information as possible so it could serve as a stand-alone reference.

Materials that did not fit into the document are now being posted separately on EPA's Watershed Activities webpage:

(www.epa.gov/sfbaydelta/activities.html).

Once the materials are posted, you can access them by scrolling down to the section entitled "Sacramento-San Joaquin River Delta" and by clicking on the link to the "Delta Water Quality Standards." Thanks so much for the wisdom, enthusiasm, and dedication you bring to your professional work. You made the workshop a success, and we will do everything possible to ensure your investment was worthwhile.

Best Regards, Tim

Tim Vendlinski Senior Policy Advisor Office of the Director (WTR-1) EPA Pacific Southwest Region 75 Hawthorne Street San Francisco, CA 94105-3901
